

FOLDABLE BACKPACK (22L)

Whether you're traveling around the globe as a backpacker or just go on a city trip, our foldable backpack should always come along, BECAUSE: It fits 22 L and when it's not needed anymore it can be folded to the size of a smartphone and put away.

For this TRAVEL DUDE product innovation and sustainability for traveling are our focus.

THE FEATURES

FOLDABLE

The rucksack can be folded to the size of a smartphone and stowed away into the top compartment of the backpack. This way it's ideal for any kind of journey because of its small size and big volume.

WATERPROOF AND SUPER-LIGHT

The foldable rucksack is perfect for any weather because of its waterproof material and super lightweight at the same time so that you don't carry unnecessary weight.

INFLATABLE BACK CUSHION

Like with our Adventure Set, here it is also our concern to make carrying the backpack as comfortable as possible. Therefore, we included an inflatable back cushion which not only gives structure to the backpack but also makes carrying it incredibly comfortable.

BOTTLE HOLDER

For your water bottle during your trip we included a bottle holder on the outside of the rucksack, which holds up to one liter bottles. This way you don't need to worry about liquids in your backpack.

QUICK ACCESS AND A LOT OF SPACE

A sideways zipper enables you to quickly access the main compartment so that you don't need to search for the things you need. Additionally, there is a front compartment for small belongings or documents you might need regularly. The extendable roll top makes the rucksack even more water resistant and provides extra space when you need it.

CHEST STRAP AND WHISTLE

An extra chest strap gives the backpack extra support and makes it even more comfortable to carry. The buckle also includes an emergency whistle to be heard easily.

WHAT ELSE DO YOU NEED TO KNOW ABOUT THE FOLDABLE BACKPACK?

The foldable backpack was tested by us and our founder Julia during her own travels and was constantly optimized to be perfect for any kind of journey.

Like all our products the foldable backpack is also made from recycled plastic bottles. This saves water, energy and CO2 compared to production from virgin materials like oil.

With our TRAVEL DUDE vision, we want to promote sustainable travel and travel gear and inspire travelers all around the world.

PRODUCT INFORMATION

WEIGHT

412 g – 415 g

SIZE

65 cm x 24,5 cm x 13,5 cm

MATERIAL
